Mountain View, CA
asteig@gmail.com

Enthusiastic contributor with 10+ years in full-stack web development, delivering on hundreds of projects in **fast-paced environments**. **Self-motivator** with a passion for acquiring **new technical skill sets**.

EMPLOYMENT HISTORY

Web Developer, OpenText, San Mateo, CA (Sept 2014 - Present)

- Lead the development of a legacy aggregation project, creating a framework for future migrations.
- Managed corporate Safenames domain portfolio, protecting international corporate branding.
- Wrote custom JavaScript modules including: advanced Piwik / DemandBase analytics integration, custom YouTube video player, and accessible tabbed / accordion content.

Software Engineer, X-Team, Melbourne, VIC, AU (Nov 2012 - Oct 2013)

- Worked on-site on high profile web projects including X Factor, American Idol, and FOX.com.
- Developed a voting app to determine the winner of The Simpson's Couch Gag Contest.
- Lead a globally distributed team on the development of AmericanIdol.com, Season 12.

Software Engineer, Education.com, Redwood City, CA (Apr 2011 - Apr 2012)

- Worked closely with editorial to create customized, on-demand worksheets for students.
- Responsible for back-end administration tools used by editorial staff.
- Created HTML email templates; automated and standardized format sitewide.

Junior Software Developer, Solid Cactus (Web.com), Shavertown, PA (Apr 2010 - Mar 2011)

- Created pixel-perfect e-commerce storefronts, blogs, and informational websites.
- Principal software engineer for accuRATEship; ensured accuracy of shipping quotes.
- Lead small teams to ship between 2 and 4 custom storefronts each week, working collaboratively to exceed our clients' expectations.

Network Solutions, Drums, PA - Technical Support / Sales (Jan 2008 - Apr 2010)

- #1 in the center for amount of calls handled; fixed dozens of customers' websites every day, coming into contact with many different technologies and programming techniques.
- Resolved advanced technical support escalations related to a line of products including: DNS, SSL certificates, shared hosting packages, and virtual private servers.
- Honored as 5x consecutive *Inner Circle* recipient for ranking in the top 10% of regional sales.
